Welcome to VIBA

We are passionate about fastening and bonding technology. Our rich history and many years of experience have made us experts at mechanical fastening and chemical bonding. We closely follow innovations and new developments. Ensuring we are always able to provide our industrial customers in the Benelux region with the best fastening and bonding solutions and to advise them on production process optimisations.

As a representative of leading international manufacturers, we supply a wide range of high-quality products straight from stock. We are also compliant with all mandatory regulations in terms of quality, health, safety and the environment.

Come and immerse yourself in our world of fastening and bonding technology. Find out who we are, what we do and how we can help you. Together we will ensure you have tough, durable fastening and bonding solutions for your industrial projects. That's our solid promise!

Our brands and suppliers

We work exclusively with reputable leading suppliers from across the globe, fostering long-term relationships in that regard. We keep pace with the latest develops to ensure that our technical specialists are always in a position to provide up-to-date expert advice. If needed, we will put customers directly in touch with suppliers to arrange for bespoke solutions.

FRIGERIO ETTORRE S.p.A.

Connecting all markets

VIBA provides technical knowledge, high-quality products and the very best solutions for the various sectors in the Benelux region. As the specialist in fastening and bonding technology, we supply direct

to industrial customers as well as through technical wholesalers. We advise and support customers in a wide array of market segments:

Metal processing industry

Plastics processing industry

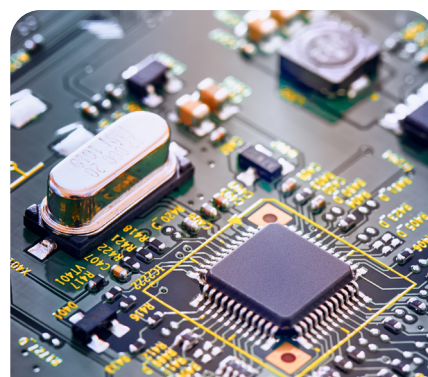

Equipment & machine construction

Automotive & transport industry

Construction, infrastructure & installation engineering

Electrical & electronics

Maritime industry

HVAC (climate technology)

Automotive aftermarket

Our mechanical fastening and chemical bonding solutions

Fasteners | Mechanical fastening

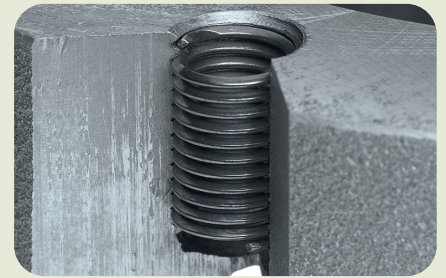

Blind rivet systems

The best blind rivet: the joint remains entirely intact, as does your tool.

Quick fasteners

Our quick fasteners provide a swift solution for any assembly problem.

Threaded inserts

Replace, reinforce and install screw threads in no time at all.

Sealing plugs (expanders)

For perfect mechanical sealing of hydraulic ducts and pipes.

Toggle clamps

Versatile connection, reliable locking? No problem!

Starlock washers

Secure quickly and safely: nothing more, and definitely nothing less!

Connecting elements

A swift, vibration-resistant connection that will also accommodate tolerances.

Panel fasteners

Looking for a revolutionary snap fastener system for wall and ceiling panels? Then you have come to the right place!

Automation

Automation allows you to optimise production and process control.

VIBA provides a wide range of fastening and bonding solutions. Each category encompasses a variety of technologies and products for your specific application. Whatever solution you are looking for, VIBA has the answer.

Bonding | Chemical bonding

Two-component adhesives

The strongest of the strong.

Flexible adhesives and sealants

Where elasticity is essential.

Superglues

When speed is of the essence.

UV adhesives

Strong, rapid-set *and* environmentally friendly: the best of all worlds.

Threadlocking adhesives

For strong adhesion that you can blindly rely on.

Double-sided tapes

VIBA is the byword for the world's strongest double-sided tape.

To measure is to know: our test facilities

We provide adhesion advice each and every day. We will be happy to come to your site and discuss and test the best fastening or bonding solution for your application. This is our specialism and our everyday work.

At VIBA, we have extensive in-house test facilities encompassing a tensile testing machine and analysis equipment for mechanical fastening and chemical bonding methods. We perform comparative tests to objectively assess the durability, strength and efficiency of products and technologies. Our independent advice is based on test results and

technical expertise, ensuring well-considered decisions. Once the tests are complete, customers are provided with detailed reports containing performance data and recommendations, thus enabling them to make informed choices for optimum fastening or bonding technologies.

In short, VIBA has the expertise and facilities to conduct thorough testing and ensure that our customers benefit from independent advice and reliable data. Enabling them to select the best fastening or bonding technologies for their specific needs.

- In-house test facilities
- Comparative testing
- Independent advice
- Test results report

- Optimisation
- Standardisation
- Process control

Maximising production efficiency through automation

Keen to have better products and faster, more efficient processes to boost production capacity? We would be happy to share our automation knowledge and experience with you. Thus ensuring we find the optimum solution for any automation-related issue. After all, automation boosts both production quality and production capacity. And it reduces errors and ensures controlled installation processes.

We can provide expertise for a variety of automation projects, with the aid of manufacturer specialists if need be. Together we will look for the best economic solution, such as comprehensive automation using robots or semiautomated machines.

So feel free to get in touch with our specialists for advice on automation!

Smart logistics

Efficient logistics are everything to VIBA. Our warehouse in Zoetermeer guarantees swift delivery in the Netherlands and Belgium. We adapt our logistics to our customers' wishes, including options such as reserving stock, repackaging and customer-specific labelling.

We are constantly endeavouring to improve logistical performance. Which entails investing in operational processes to boost reliability of supply and provide our customers with even better service.

Safety and protecting the environment are top priorities for us, particularly when it comes to the distribution of hazardous substances. We keep a close eye on the regulations for safe storage, transport and labelling of chemicals.

We are fully compliant with the EU's REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals) and CLP (Classification, Labelling and Packaging) regulations. As a result, we supply our customers with up-to-date Safety Data Sheets and ensure that products are correctly labelled, which is essential for ensuring that users are aware of the hazards presented by chemicals. For the purposes of transporting these substances, we are partnered with certified transport firms compliant with all the provisions of the European ADR treaty.

Team and organisation

VIBA combines the strengths of in excess of 50 employees, who collectively form a diverse, close-knit team of office and warehouse staff, from managers to work placement students. Our sales organisations operate in the Netherlands and Belgium, with our head office and warehouse being situated in Zoetermeer.

Core values

Despite having a wide array of backgrounds and personality traits, we share the same core values. These core values define our identity and steer our behaviour.

Customer focus

We focus on our customers' wishes and requirements and do our utmost to provide them with solid solutions.

Competence

Our knowledge of products and usage is our most important asset here at VIBA. We are good at what we do and we maintain and develop our competencies.

Create Value

Through our activities we create value for our most important stakeholders: staff, customers, suppliers and shareholders.

Cooperation

Cooperation is the only way to reach our goals. Within the VIBA team, we help each other to complete projects and get the work done.

Hence VIBA

The power of VIBA.

- Specialist in mechanical fastening *and* chemical bonding
- Experienced advisors with knowledge of products and applications
- Reputable leading brands
- In-house test facility
